🎨💥 Exciting News! Introducing our Friday Workshops for Teens this July and August! 💥🎨

Get ready for an explosion of creativity as we welcome a seasoned artist to lead a series of thrilling art activities every Friday. It's not just any workshop – it's a chance for our teens to unleash their artistic talents and shine!

🖼️ **What's in store?** Our teens will dive into a world of colours, shapes and imagination, crafting stunning pieces of art. And here's the best part – their creations will be showcased in a local gallery, with the possibility of them being snapped up by art enthusiasts!

🌱 **But wait, there's more!** We're rolling out the red carpet for all parents, inviting you to witness firsthand the magic your young person creates. Join us for a special viewing event where you can marvel at their masterpieces and chat with the art teacher about your young person's growth and development throughout this enriching experience.

📅 **Mark your calendars!** The grand event will take place at Nature, 32 New Market Street, on August 9th from 6-8 pm. Don't miss this opportunity to celebrate creativity, community and the incredible journey of artistic discovery!

creative expression and community connection
